

Friday June 17th

# Daily News

## PROGRAMME

### Plenary sessions:

**Morning (8:30-10:30, Stora Salen):**  
Heavy Flavor plenary, covering a theory overview, HF production and spectroscopy, CP violation, mixing and semileptonic decays of  $b$  and  $c$ , and rare decays.

**Afternoon (13:30-15:30, Stora Salen):**  
Top plenary, including a theory overview, production and properties of  $t\bar{t}$  and single top.

### Parallel Sessions:

**Morning (11:00-12:45):**

- Exotics and Dark Matter (Stora Salen)
- Future Colliders (Lilla Salen)
- Heavy Flavor (Nya Fest)

**Afternoon (16:00-18:00):**

- Exotics and Dark Matter (Lilla Salen)
- Heavy Flavor (Nya Fest)
- Upgrade(Konsertsalen)

## LHCP ON SOCIAL MEDIA

## CONFERENCE BANQUET

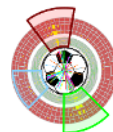

The conference banquet starts at 19:00 with an aperitif at AF Borgen, outside if the weather permits, inside if it rains. We will then move to Stora Salen, where the conference dinner will be served. Be ready to join in on the Swedish banquet traditions! After the dinner, there will be a band playing pop classics that are easy to dance to even for physicists, and a bar open to conference participants (note that the bar accepts only cash).

The conference photo can be found [on indico](#)

### EURO 2016

England 2 - Wales 1  
Northern Ireland 2 -Ukraine 0  
Germany 0 - Poland 0

## SWEDEN TRIVIA

A Swedish concept: the word *lagom* is loosely translated as "just the right amount," "in moderation," "appropriate," and other such synonyms. It comes from a shortening of the phrase "*laget om*," which literally means "around the team" and dates back to the Viking era. Communal horns filled with fermented honey wine would be passed around and everyone would sip their own share and leave enough for others. Viking also liked to sing while drinking.
